YOUR MONTHLY NEWS HIGHLIGHTS FROM THE  
SECRETARIAT OF THE PACIFIC REGIONAL ENVIRONMENT PROGRAMME

## Message from Mr Sefanaia Nawadra, Director General of SPREP

Bula vinaka,

As the year draws to a close, it is business as usual at your Secretariat. Work continues on the ground in strengthening island resilience through invasive species management, Ecosystem-based Adaptation and enhanced Met Services. Our team recently returned from Belém, Brazil, where we provided technical support to Pacific representatives in the UNFCCC negotiations and at the Moana Blue Pacific Pavilion during COP30. We also continued our support through the conclusion of CITES COP20, and are now assisting efforts to strengthen Pacific representation at UNEA-7. Internally, preparations are already underway for next year's work plans and activities and we look forward to working with you in 2026. Wishing you all a Merry Christmas and prosperous New Year!

*Sefa.*

### Vanuatu Farmers, Empowered by Women Leaders, Gain Crucial Climate Tools to Secure Resilient Food Systems

Local women leaders and farmers in Vanuatu have significantly enhanced their capacity to build climate-resilient food systems and protect their agricultural livelihoods following a comprehensive week of training and community outreach focused on the OSCAR (TailOred System of Climate Services for ARriculture).

## Pacific at the Minimata COP

The Sixth Meeting of the Conference of the Parties to the Minimata Convention on Mercury was held from 2 – 7 November in Geneva, Switzerland. Since 16 August 2017, the Minamata Convention has taken significant steps to control the mercury supply sources and trade, reduce the use, emissions and releases of mercury, raise public awareness, and build the necessary institutional capacity. Together, Parties have taken action to phase out mercury-added products, including fluorescent lamps, thermometers, and mercury in cosmetics as well as limiting mercury use in industrial processes.

## 'Any overshoot of 1.5°C, even temporary, is catastrophic for us'

COP30, billed as the “COP of truth” by host country Brazil, must be a space for the world to assess where we are, recommit to achieve the Paris Agreement’s temperature goal of 1.5, and develop a plan to ramp up action to address climate change. As climate negotiators converge on Belem, a city on the northwest of Brazil considered the gateway to the Amazon region for COP30, the AOSIS made the point on the first day of the SIDS Preparatory Meeting, facilitated by AOSIS, currently chaired by the Government of Palau.

## Building Capacity for Conservation: GIS Training Strengthens Biodiversity Monitoring in the Cook Islands

Environmental Monitoring and Governance Growing skill sets to use GIS tools and data collection for mapping, was at the core of training in the Cook Islands. SPREP, in collaboration with the Cook Islands National Environment Service (NES), successfully conducted a four-day Geographic Information System (GIS) and Data Management Training in Rarotonga from 28–31 October 2025.

## Building Capacity to Tackle Marine Litter: Solomon Islands Leads First SWAP Phase 2 Training

Pacific countries continue to demonstrate leadership in tackling plastic pollution, despite three years and six rounds of international negotiations failing to deliver a global treaty to end plastic pollution. Actions to reduce plastic waste and protect our ocean, are being undertaken by Pacific island governments and at the community level, including the Solomon Islands having completed its first Marine Litter and Waste Audit Training.

## Moana Blue Pacific Pavilion officially opens at COP30, highlighting regional leadership in Climate Action

The Pacific mana could be felt throughout the halls of the UNFCCC COP30 in Belém, Brazil, during the official opening of the Moana Blue Pacific Pavilion. A special karanga (ceremonial call) from Aotearoa, New Zealand welcomed Pacific leaders, government officials, NGOs, academics, partners, and friends to their home away from home at COP.

## Island Resilience in Action: Majuro's Invasive Myna Bird Eradication Success

In a decisive move to protect native biodiversity and strengthen regional biosecurity, the Republic of the Marshall Islands (RMI) has successfully eradicated a breeding population of invasive common myna birds from Majuro Atoll. Led by the Ministry of Natural Resources and Commerce (MoNRC), Quarantine Division, in coordination with SPREP – PRISMSS, with technical support from Island Conservation, and funding from the GEF6 RIP, the operation marks a significant achievement in Pacific invasive species management.

# One Pacific Voice

Special moments

## One Pacific Voice at UNFCCC COP30

10 – 21 November 2025

**"Our voice matters. At COP30, the Pacific comes ready to engage!"**

*Amplifying our One Pacific Voice*  
PEPETUA LATASI, TUVALU

*Moana Blue Pacific Pavilion @COP30*

**"It's important that we continue to have the Pavilion at COP; it is our space for connection and collaboration."**

Glenda Pakoa  
Vanuatu

**"As a Palauan, I have a responsibility to ensure our planet is at least liveable for the next generation."**

*Amplifying our One Pacific Voice*  
XAVIER MATSUTARO, PALAU

*Pacific Delegation Office @COP30*

**"COP negotiations are unpredictable by nature, anything can happen at any given time, at the Delegation Office we can better prepare and respond when this happens."**

Mikaele Finau  
Fiji

*Amplifying our One Pacific Voice*  
TAUPAU APULU ISAIA LAUTASI, SAMOA

**"We didn't come to Belém to beg for survival; we demand justice. 1.5°C is not a target, it is our lifeline"**

*Moana Blue Pacific Pavilion @COP30*

**"The Moana Pavilion anchors the Pacific presence in these large international spaces. COP can feel very technical, political and high level, but the Pavilion brings us back to our culture and communities and is a reminder of why we are here."**

Tasimalisau Vaal Ah Him,  
Samoa

*Moana Blue Pacific Pavilion @COP30*

**"The Moana Blue Pacific Pavilion is our space to share our stories, stories that show the world how the Pacific lead by example."**

Darren Yorjo  
Papua New Guinea

*Amplifying our One Pacific Voice*  
HON. MONA AINU'U, NIUE

**"As a Niuean, I want my one rock to still be standing when my child reaches my age. I want her to enjoy what I've enjoyed."**

*Pacific Delegation Office @COP30*

**"The Pacific Delegation office is important for our country delegations. It is our safe space where we can coordinate and speak freely and frankly about our priorities and concerns."**

Susana Liavaa  
Tonga
