Palau PACC Mainstreaming

Gap Analysis → Food Security Policy

-informed by the following processes/initiatives

- ❑ Sustainable Land Management Policy for Palau (April 2012)
- ❑ National Building Code Legislation (not passed yet)
- ❑ Palau Water & Sanitation Policy (April 2012)
- ❑ Palau National Disaster Risk Management Framework (March 2012)

Mainstreaming...Rationale

- ❑ Palau PACC Core Group - key stakeholder in initiatives
- ❑ The food security gap analysis was made possible through the original efforts listed below:
 - Development of national policies and frameworks provide vision, direction, coordination
 - Development of national building code – standards to address implications on designated agri/aquaculture zones.
 - Establishment of guiding principles –address the needs of vulnerable populations and the unique impacts they face with regard to local food production

Mainstreaming...Process

- ❑ Desk review – gap analysis/policy review (food security & CC)
 - Based on previous SLM, IWRM & DRR initiatives
 - ❑ SWOT Analyses
 - ❑ State CAPs
 - ❑ Gender Assessment (part of SLM Policy)
 - ❑ Capacity Assessment (part of SLM Policy)
 - ❑ Nation-wide Socioeconomic Assessment
 - ❑ Nation-wide GIS Farm Survey
- ❑ Key stakeholder Consultations
 - NGOs & CBOs who work directly with communities
 - Council of Chiefs
 - Governor's Association
 - Farmer's Associations (Ekei Women's Group , Palau Organic Farmers Assoc, etc)
- ❑ Palau PACC Core Group review

THANK YOU MESULANG!!
