A monthly e-bulletin from the Secretariat of the Pacific Regional Environment Programme

ISSUE 56 • JULY 2019

MESSAGE FROM MR. KOSI LATU, DIRECTOR GENERAL OF SPREP

Warm greetings from the SPREP campus,

July was a busy month for Samoa as they hosted the XVI Pacific Games, and for the Secretariat as we helped them execute the first ever “Green Pacific Games”.

The Samoa 2019 Pacific Games has now set the standard for more Green events to be held in the Pacific in the near future. It was an excellent platform to encourage a change in behaviour in our Pacific island people, by using athletes whom most of us look up to, to set an example for us all to follow.

I would like to thank our partners for their generous support and contribution to the Greening of the Games campaign, without which none of this would have been possible.

I would also like to congratulate the Government of Samoa and its people for successfully hosting the biggest Pacific Games to date with only 14 months to prepare - and if that wasn't enough of a challenge, deciding to commit to making it a Green Pacific Games.

Finally, my congratulations to all athletes who competed in the Samoa 2019 Pacific Games, for their commitment to caring for our Pacific environment.

Soifua,

Mr. Kosi Latu, Director General of SPREP.
